

# STATEMENT OF QUALIFICATIONS

Atlas Heritage, LLC is an Oregon-based cultural resources management firm providing terrestrial archaeology, maritime and underwater archaeology, historic preservation, regulatory compliance, technical documentation, and senior advisory support throughout the western United States, Alaska, Hawaii, the Pacific, and international settings.

Terrestrial services are concentrated across the western United States, Alaska, Hawaii, and the Pacific, while maritime archaeology support is available nationwide and internationally.

## Experience at a Glance

### 40+ COMBINED YEARS

Cultural resources leadership

### INTEGRATED PRACTICE

Terrestrial, maritime, bioarchaeology, and compliance

### 11 STATES

PI permits or qualifications

### 100+ REPORTS

Authored or coauthored

### PACIFIC REACH

Alaska, Hawaii & island work

### FLEXIBLE TEAMING

Prime, subconsultant, and on-call support

## Why Atlas Heritage

- Senior attention from scoping through final deliverables, with practical recommendations aligned to schedule, budget, safety, and regulatory risk.
- Flexible teaming for direct assignments, subconsultant roles, on-call programs, surge support, and specialized Principal Investigator or maritime needs.
- Deep experience with NHPA Sections 106 and 110, NEPA, NAGPRA, ARPA, agency coordination, Tribal consultation, and submerged cultural resources.
- Field-tested delivery across federal lands, utilities, transportation, renewable energy, telecom, advanced industry, marine infrastructure, and recovery-oriented missions.

CORE PRACTICE

# Terrestrial Archaeology

Principal-led cultural resources support for projects across the western United States, Alaska, Hawaii, and the Pacific.

- 1 Regulatory Strategy & Compliance**  
 NHPA Sections 106 and 110; NEPA integration; NAGPRA and ARPA considerations; agency and Tribal coordination; consultation support; and compliance roadmaps.
- 2 Desktop Assessments & Risk Screening**  
 Records research, literature review, constraints analysis, GIS-enabled sensitivity screening, and early identification of permitting or cultural resources risk.
- 3 Survey, Inventory, Testing & Evaluation**  
 Pedestrian survey, shovel testing, site documentation, eligibility evaluation, artifact analysis, and permit support tailored to agency and project requirements.
- 4 Data Recovery & Treatment Planning**  
 Research designs, testing strategies, mitigation planning, treatment recommendations, site-specific methods, and defensible documentation.
- 5 Construction Monitoring & Emergency Response**  
 Construction monitoring, inadvertent discovery protocols, rapid mobilization, emergency stabilization, shoreline and wildfire response, and field decision-making.
- 6 Bioarchaeology & Burial-Related Support**  
 Human osteology, burial recovery planning, respectful treatment of ancestral remains, consultation support, and work under applicable legal and ethical requirements.
- 7 Technical Documentation & QA/QC**  
 Inventory and evaluation reports, Section 106/110 documentation, monitoring plans, scopes of work, cost estimates, and senior technical review.
- 8 Program & Project Management**  
 Principal-in-Charge and PI services; staffing and logistics; budgets, schedules, project controls, subcontractor coordination, and client communication.

## Markets Served

### Federal & Public Lands

BLM, USFWS, USFS, Reclamation, FEMA, USACE, state and local agencies.

### Utilities & Energy

Transmission, substations, generation, renewables, BESS, pipelines, on-call programs.

### Transportation & Public Works

Roads, bridges, airports, ferries, water systems, BESS, pipelines, on-call projects.

### Telecom, Data Centers & Industry

Telecommunications, data centers, semiconductor facilities, advanced manufacturing, and commercial development.

### Western U.S. & Pacific Support

Field crews and support throughout the western U.S., Alaska, Hawaii, and the Pacific.

# Maritime Archaeology

Nationwide and international maritime archaeology support for submerged, coastal, offshore, and recovery-oriented projects.

- 

**Submerged Site Assessment**  
Desk-based research, archival review, preliminary assessment, field verification, and significance-focused documentation of submerged cultural resources.
- 

**Shipwreck Documentation & Interpretation**  
Condition assessment, in-situ recording, photogrammetric or measured documentation support, interpretation, and defensible heritage products.
- 

**Remote Sensing & Survey Design**  
Side-scan sonar, magnetometer, sub-bottom profiling, ROV/AUV planning, diver verification strategies, and integration with marine contractors.
- 

**Diver Investigations & Documentation**  
Systematic diver investigations, documentation protocols, visibility-challenged field methods, marine safety planning, and scientific recordkeeping.
- 

**Technical & Scientific Diving Support**  
Deep technical diving capability, closed-circuit rebreather (CCR) operations, cave-diving experience, and scientific diving support for specialized missions.
- 

**Marine & Coastal Infrastructure**  
Cultural resources support for ports, harbors, dredging, nearshore and offshore development, utilities, marine construction, and coastal resilience.
- 

**Maritime Cultural Landscapes & Communities**  
Interpretation of seascapes, routes, settlement, trade, environmental archaeology, coastal communities, and stewardship-oriented heritage work.
- 

**Maritime Reporting & QA/QC**  
Research designs, field protocols, technical reports, data management, client/agency coordination, and quality assurance for defensible historic-preservation deliverables.

## Maritime Reach & Leadership

Led by Dr. Frederick H. "Fritz" Hanselmann, PhD, MPA, Atlas Heritage provides nationwide and international maritime archaeology support with more than 20 years of maritime archaeology, cultural anthropology, and underwater field experience. We work across Latin America, the Caribbean, North America, Vietnam, Guam, the Commonwealth of the Northern Mariana Islands, and the wider Pacific.

- Shipwreck documentation and maritime field investigations - diver-based recording, interpretation of maritime cultural landscapes, and public-facing heritage initiatives.
- Guam, CNMI & Pacific maritime support - island logistics, dive operations, field archaeology, stakeholder coordination, and recovery-oriented mission support.
- Coastal communities, marine stewardship & environmental archaeology - multidisciplinary work integrating people, environment, and seascapes.

LEADERSHIP

# Leadership & Qualifications

## Shawn Fackler, MA, RPA

**Founder & Principal | SOI-Qualified Archaeologist**

*Portland, Oregon*

Shawn Fackler is a senior cultural resources executive and archaeologist with more than 20 years of experience leading archaeological and historic preservation programs and projects across the United States, the Pacific, and international settings. He leads multidisciplinary teams on complex projects as Principal Investigator, providing strategic oversight, technical rigor, and client-focused solutions. Shawn is experienced in agency and Tribal consultation, business development, and regulatory compliance, with proven success delivering high-quality results across federal lands, utilities, transportation, renewables, telecom, and emergency response initiatives.

### EDUCATION & CREDENTIALS

- MA, Archaeology and Heritage – University of Leicester
- BA, Anthropology; Minor in History – Arizona State University
- Registered Professional Archaeologist – RPA 989919
- Secretary of the Interior-qualified archaeologist
- Oregon SHPO-qualified archaeologist
- HAZWOPER 40-hour; OSHA 10-hour

### CONTACT

Shawn.Fackler@AtlasHeritageCRM.com  
503-893-2755

## Fritz Hanselmann, PhD, MPA

**Principal | Maritime Archaeology**

*Pensacola, Florida*

Fritz Hanselmann is a maritime archaeologist and cultural anthropologist with more than 20 years of experience leading underwater and coastal heritage projects throughout the United States and internationally. He specializes in shipwreck documentation, environmental archaeology, and the application of advanced diving technologies to complex field challenges. Fritz manages technical operations, research design, and field execution, supporting clients and partners on projects that advance the understanding and preservation of maritime heritage resources nationwide and worldwide.

### SPECIALIZED EXPERIENCE

- Maritime and underwater archaeology
- Shipwreck documentation and interpretation
- Environmental archaeology and coastal communities
- Closed-circuit rebreather (CCR) operations
- Deep technical and cave diving
- SCUBA instructor; scientific diving support
- Remote logistics and field operations
- Support for nationwide and international maritime archaeology efforts

## Practice Strengths

### INTEGRATED CAPABILITIES

Terrestrial and underwater archaeology, bioarchaeology, regulatory compliance, technical documentation, QA/QC, and project leadership.

### GEOGRAPHIC REACH

Western United States, Alaska, Hawaii, Guam, CNMI, and the wider Pacific, nationwide maritime support, and international assignments.

### PARTNERSHIP APPROACH

Direct assignments, subconsultant roles, joint pursuits, on-call and task-order support, temporary leadership, and specialist augmentation.
