INFRASTRUCTURE

Senior-Led. Solution-Oriented. Results-Driven.

Atlas Heritage is a senior-led cultural resources management firm delivering reliable, compliant, and efficient solutions that help energy, technology, and infrastructure clients meet regulatory requirements and keep projects moving. Our expertise spans all project phases—from initial planning and due diligence through permitting and construction.

ARCHAEOLOGICAL ASSESSMENTS & PREDETERMINATIONS

Field evaluations and site assessments to identify cultural resources, evaluate eligibility for the NRHP, and support project planning and decision-making.

DESKTOP ANALYSIS

Comprehensive research using archival records, historic maps, aerials, LiDAR, and predictive modeling to identify potential resources and inform field strategy.

CRITICAL IMPACT ASSESSMENTS

Detailed analysis of project-related effects on eligible sites and historic properties to support regulatory compliance and mitigation planning.

CULTURAL RESOURCES DUE DILIGENCE

Phase I and II evaluations to identify risks, support transactions and permitting, and develop clear, defensible compliance strategies.

ARCHAEOLOGICAL SURVEY, TESTING, MONITORING & EXCAVATION SUPPORT

Pedestrian survey, subsurface testing, construction monitoring, and excavation support conducted to state and federal standards.

AGENCY CONSULTATION & PERMITTING

Coordination with federal, state, and local agencies, including NEPA, NHPA Section 106, and state archaeological permit processes.

TRIBAL COORDINATION SUPPORT

Respectful, solution-focused engagement with Tribal governments to support consultation, address concerns, and build lasting partnerships.

TECHNICAL REPORTING & QA/QC REVIEW

Clear, professional reporting and rigorous QA/QC to ensure accuracy, defensibility, and regulatory compliance at every stage.

OUR COMMITMENT TO CLIENT SUCCESS

SENIOR-LED TEAM

Experienced professionals leading every project.

COMPLIANCE FOCUSED

Regulatory expertise that reduces risk and delays.

ON SCHEDULE

Proactive planning and efficient execution.

CLEAR COMMUNICATION

Responsive, transparent and solution-oriented.

MEASURABLE RESULTS

Defensible deliverables that keep projects moving.

Regulatory Support & Technical Capabilities

Atlas Heritage provides expert regulatory support and technical services to help clients navigate complex cultural resources requirements and achieve successful project outcomes.

COMPLIANCE SUPPORT FOR KEY ENVIRONMENTAL LAWS

 Section 106 National Historic Preservation Act We support federal agencies and project sponsors in meeting Section 106 requirements through consultation, documentation, and resolution of adverse effects.	 CEQA California Environmental Quality Act We prepare cultural resources analyses and documentation in compliance with CEQA guidelines, supporting informed decision-making and mitigation.	 NEPA National Environmental Policy Act We provide the cultural resources analysis and documentation needed for NEPA compliance, including EA, EIS, and categorical exclusion support.	 SEPA Washington State Environmental Policy Act We deliver cultural resources review and documentation aligned with SEPA requirements to support local and state agency decision-making.
--	---	--	--

CORE TECHNICAL CAPABILITIES

 Records Research We conduct comprehensive records searches and background research to establish project context and identify potential resources.	 Desktop Review We evaluate maps, aerials, and existing data to assess sensitivity, inform planning, and guide field strategies.	 Impact Analysis We assess direct, indirect, and cumulative effects to support regulatory compliance and project planning.	 Archaeological Assessments & Predeterminations We identify and evaluate archaeological resources to support agency concurrence and project advancement.	 Critical Impact Assessments We evaluate adverse effects to historic properties and develop resolutions consistent with regulatory requirements.
 Survey & Testing Strategies We design efficient, science-based field strategies tailored to project needs and regulatory expectations.	 Monitoring Plans We develop archaeological monitoring plans to ensure proper oversight during project activities.	 Mitigation Planning We create feasible, measurable mitigation plans to avoid, minimize, or offset adverse effects.	 Agency & Stakeholder Coordination We build partnerships and facilitate consultation with agencies, Tribes, and stakeholders to achieve collaborative outcomes.	 Report Preparation We produce clear, well-documented reports that meet regulatory standards and support timely review and approval.

OUR REGULATORY SUPPORT PROCESS

Quality • Compliance • Collaboration • Results

Delivering practical solutions that meet regulatory standards and keep projects moving forward.

Atlas Heritage is led by **Shawn Fackler, M.A., RPA**, a senior cultural resources professional with more than 20 years of experience delivering high-quality archaeological and compliance solutions across diverse project types and regulatory environments.

SPECIALIZED EXPERTISE

- Bioarchaeology
- Human Osteology
- Burial Treatment & Exhumation
- Archaeological Compliance
- Regulatory Strategy & Permitting
- Quality Assurance / Quality Control (QA/QC)
- Technical Report Writing
- Program Leadership
- Risk Management
- Direct Principal Involvement

Principled Leadership. Measurable Results.

Shawn provides direct oversight on every project, ensuring technical excellence, regulatory alignment, and responsive communication from start to finish.

BY THE NUMBERS

20+ YEARS OF EXPERIENCE
Delivering cultural resources solutions across the western U.S. and beyond

100+ PROJECTS & PROGRAMS SUPPORTED
Across energy, infrastructure, telecommunications, environmental, and cultural resources markets

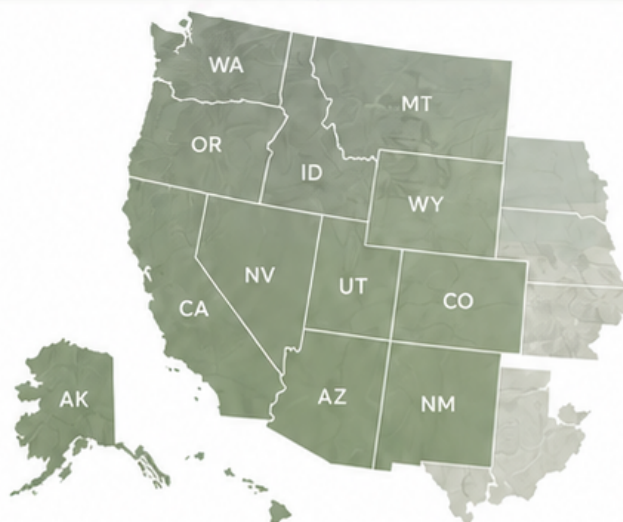

MULTIPLE JURISDICTIONS SERVED
Federal, state, tribal, and local agencies and private clients

100% COMMITMENT TO QUALITY & SCHEDULE
Proactive planning, clear communication, and on-time delivery

GEOGRAPHIC & REGULATORY COVERAGE

- **Western United States**
Extensive project experience across diverse landscapes and environments
- **Pacific & U.S. Territories**
Experience in Hawaii, Alaska, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands
- **Multiple Jurisdictions**
Federal (BIA, BLM, USFS, NPS, SUACE, FERC), state SHPOs, tribal governments, and local agencies

FIELD READY

Fast. Efficient. Highly Mobile.

Representative Experience & Contact

Atlas Heritage delivers reliable cultural resources management support across the built and natural environment. Our team helps clients meet regulatory requirements, reduce risk, and keep critical projects on schedule—while supporting responsible stewardship.

Representative Project Support

ENERGY TRANSMISSION & DISTRIBUTION

Support for high-voltage transmission lines, substations, and distribution upgrades including inventory, evaluation, and mitigation for Section 106/NEPA compliance.

RENEWABLE ENERGY

Cultural resources services for wind, solar, and battery storage projects, including trenchless crossings, facility siting, and access road improvements.

DATA CENTERS

Due diligence and compliance support for data center campuses, power infrastructure, and site development from planning through construction.

TELECOMMUNICATIONS

Services for wireless towers, fiber routes, and network expansion projects including surveys, reporting, and regulatory coordination.

INFRASTRUCTURE PROJECTS

Support for transportation, pipelines, water, and other infrastructure projects requiring cultural resource compliance and consultation.

Why Clients Choose Atlas Heritage

RESPONSIVE PROJECT DELIVERY

We mobilize quickly, communicate clearly, and deliver high-quality work on time and within scope.

PRINCIPAL-LED SERVICE

Our projects are directed by an experienced Principal to ensure continuity, quality, and accountability.

STRATEGIC TEAMING SUPPORT

We collaborate with trusted experts and partners to provide the right resources for complex projects.

Atlas Heritage is committed to practical solutions, regulatory excellence, and building long-term client partnerships.
